

CUCKOO'S LANDING – DM REFERENCE

-  Cuckoo (10×10 ft, Large, restrained on the rod)
-  Impact path: rod corridor + door swing (A2-A9)
-  Bellows cone (DC 14 CON, on-rounds)
-  Platform overlay (fixed): row A = squeeze catwalk

Gear rotates 90° CW at Initiative 20 (lair) – the platform, doors, rod, and perch do NOT rotate
 Emerge/retract: DEX save in the impact path or knocked down; the doors slam 180° through A2-A9 on deploy
 Row A catwalk = half squares: squeezing (1/2 speed, disadv. on attacks, attacks against them have adv.)
 Aperture blocked while the cuckoo is out – ride it in: DC 12 STR (Athletics) as it retracts
