

Cuckoo (10×10 ft, Large, restrained on the rod)

Impact path: rod corridor + door swing

Bellows cone (DC 14 CON, on-rounds)

Platform overlay (fixed): row A = squeeze catwalk

Gear rotates 90° CW at Initiative 20 (lair) – the platform, doors, rod, and perch do NOT rotate

Emerge/retract: DEX save in the impact path or knocked down; door swing: A2-B9 + C3-C4 / C7-C8

Row A catwalk = half squares: squeezing (1/2 speed, disadv. on attacks, attacks against them have adv.)

Aperture blocked while the cuckoo is out – ride it in: DC 12 STR (Athletics) as it retracts
