

CUCKOO'S LANDING – DM REFERENCE

- | | |
|---|--|
|  Gear floor (5 ft square) |  Cuckoo (10x10 ft, Large, restrained) |
|  Rod impact path (DEX save, emerge/retract) |  Bellows cone (DC 14 CON, on-rounds) |
|  Rod (on grid line, indestructible) |  Planar aperture (blocked while cuckoo out) |

Gear rotates 90° clockwise at Initiative 20 (lair action)

Cone direction is fixed – rotation moves players into and out of the blast zone
