

# CONTRACT OF PLANAR ACCORD AND MUTUAL OBLIGATION

---

*Entered into this 14th day of the Month of Hammers,  
in the Year of the Ageless One*

by and between

**Wilhelm Zeiger**, Uhrmacher of the Tiefenwald,  
Proprietor and Sole Keeper of the Kuckucksuhrturn  
(hereinafter “the Uhrmacher”)

and

**The Modron Collective of Mechanus**,  
acting through its duly authorized Pentadrone Designate II-7742,  
on behalf of Primus and the Greater Modron Hierarchy  
(hereinafter “the Collective”)

---

Witnessed and notarized by the Kolyarut Enforcer **Axiom-IX**,  
Servant of Absolute Accord, Plane of Mechanus

## RECITALS

**WHEREAS**, the Uhrmacher has devoted his life and craft to the pursuit of horological perfection, and desires above all temporal instruments a mechanism of absolute and un-deviating precision;

**WHEREAS**, the Collective possesses within its dominion certain Apparatus of Planar Regulation, including gears forged in the Eternal Clockwork of Mechanus, capable of synchronizing any mechanism to the Pulse of Perfect Order;

**WHEREAS**, the Collective desires the establishment of a Planar Anchor upon the Prime Material Plane for purposes of extending beneficial order and the harmonious regulation of entropic variance;

**WHEREAS**, both parties recognize mutual advantage in the arrangement herein described and enter into this Contract freely, without duress, coercion, or undue influence\*;

**NOW, THEREFORE**, in consideration of the mutual promises and covenants herein contained, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

---

\*“Freely” as defined in Mechanus Statute 44.7.2: the absence of external force exceeding 12 Newtons of metaphysical pressure per unit of will. Subjective feelings of reluctance, second thoughts, or foreboding do not constitute duress under this definition.

## ARTICLE 1: DEFINITIONS

For the purposes of this Contract, the following terms shall have the meanings ascribed to them below, and no other meanings, regardless of common usage, colloquial understanding, or poetic license:

### Section 1.1. The Tower

“The Tower” shall mean the structure known as the Kuckucksuhrturn, situated in the Tiefenwald, including all floors, rooms, chambers, sub-chambers, mechanical apparatus, decorative elements, and the airspace extending vertically above the Tower to a height of no less than forty (40) cubits, together with any subterranean vaults, foundations, or passages connected thereto.

### Section 1.2. The Gear

“The Gear” shall mean one (1) Cross-Planar Regulation Gear, forged in the Foundries of Regulus, Mechanus, measuring precisely 2.7 cubits in diameter, 0.4 cubits in thickness, composed of an alloy of Mechanus-grade adamantine and crystallized law, serial designation  $\Omega$ -CVX-0091<sup>†</sup>.

### Section 1.3. Operational

“Operational” shall mean continuously functioning without interruption for a period exceeding three (3) consecutive heartbeats of Mechanus, as measured by a calibrated Modron chronometer, such that all gears, springs, escapements, and ancillary mechanisms maintain synchronized rotational output within a tolerance of  $\pm 0.0001$  arc-seconds per cycle.

### Section 1.4. Activation

“Activation” shall mean the completion of the Planar Anchor Sequence as described in Article IV, resulting in a stable and permanent connection between the Tower and the Plane of Mechanus, through which the blessings of Order may flow<sup>‡</sup>.

### Section 1.5. The Uhrmacher

“The Uhrmacher” shall mean Wilhelm Zeiger, and shall further encompass his heirs, successors, assigns, apprentices, or any designated agents of contractual fulfillment acting under his authority or assuming his obligations by operation of this Contract.

---

<sup>†</sup>The Gear is the sole property of the Collective. The Uhrmacher is granted a perpetual license of use, not ownership. Unauthorized modification, defacement, or aesthetic embellishment of the Gear constitutes a breach of this Contract and an offense against Mechanus Statute 12.1.1 (Vandalism of Cosmic Apparatus).

<sup>‡</sup>“Blessings of Order” is a term of art referring to the progressive alignment of local reality with Mechanus-standard parameters, including but not limited to: regularization of biological variance, normalization of behavioral patterns, optimization of structural geometry, and the gradual elimination of entropic inefficiency. Side effects may include loss of idiosyncrasy.

## **Section 1.6. Designated Agent of Contractual Fulfillment**

A “Designated Agent of Contractual Fulfillment” shall mean any party who, by explicit assignment, implied succession, or operation of Article V, Section 5.3, assumes the duties and obligations of the Uhrmacher under this Contract<sup>§</sup>.

# **ARTICLE 2: OBLIGATIONS OF THE MODRON COLLECTIVE**

## **Section 2.1. Provision of the Gear**

The Collective shall deliver the Gear to the Tower within fourteen (14) standard days of the execution of this Contract. Delivery shall be accomplished via Planar Courier (Tridrone-class or above) and shall include a packing manifest in triplicate.

## **Section 2.2. Technical Consultation**

The Collective shall provide, at no additional cost, the services of a Quadrone-class technical advisor for a period not to exceed ninety (90) standard days following delivery, to assist the Uhrmacher in the installation and calibration of the Gear within the Tower’s existing mechanism<sup>¶</sup>.

## **Section 2.3. Planar Harmonics**

Upon successful Activation, the Collective shall maintain a stable harmonic resonance between the Gear and the Eternal Clockwork of Mechanus, ensuring the Tower keeps time with absolute precision in perpetuity, or until the heat death of the local multiverse, whichever occurs first.

# **ARTICLE 3: OBLIGATIONS OF THE UHRMACHER**

## **Section 3.1. Installation**

The Uhrmacher shall install the Gear into the central mechanism of the Tower within sixty (60) standard days of delivery, integrating it as the primary regulating element of the Tower’s horological system.

## **Section 3.2. Maintenance**

The Uhrmacher shall maintain the Tower and all its mechanisms in Operational condition at all times. Maintenance shall include, but not be limited to: lubrication of all moving parts with clock oil of no less than Grade 3 purity, replacement of worn components, removal of debris, and the prevention of nesting by birds, bats, or other fauna<sup>||</sup>.

---

<sup>§</sup>The determination of whether a party qualifies as a Designated Agent shall be made solely by the Collective, in its capacity as the party of superior organizational competence. This determination is final, binding, and not subject to appeal, arbitration, or dramatic protest.

<sup>¶</sup>The technical advisor operates under Modron Directive 9.3.1 and is not authorized to engage in small talk, speculation, humor, or existential inquiry. Attempts to engage the advisor in such activities shall not be considered a failure of service.

<sup>||</sup>The Collective has observed that Prime Material fauna exhibit a regrettable tendency to roost in mechanical apparatus. The Uhrmacher accepts full liability for any disruption caused by biological interference, including but not limited to: bird nests in gear trains, bat colonies in bell chambers, and

### Section 3.3. Preparation for Activation

The Uhrmacher shall ensure that the Tower is prepared for the Activation Sequence as described in Article IV, including the clearing and alignment of the Planar Aperture Chamber to receive the Cuckoo Mechanism, the synchronization of the Tower's main oscillator to the frequency of Mechanus, and the winding of the Main Spring to full tension no less than one (1) hour prior to the commencement of the ritual.

### Section 3.4. Non-Interference

The Uhrmacher shall not interfere with, obstruct, delay, or otherwise impede the process of Activation once preparations have begun, nor shall he disconnect, disable, or otherwise render non-Operational any component of the Tower necessary for the completion thereof.

## ARTICLE 4: THE ACTIVATION SEQUENCE

### Section 4.1. Mechanism

Activation shall be achieved by means of the Cuckoo Mechanism, a device of no less than seven (7) cubits in height, maintained by the Collective on the Plane of Mechanus (specifications filed as Appendix C with the Kolyarut Registry). When the Tower's oscillator achieves synchronization with the frequency of Mechanus, the Planar Aperture at the apex of the Tower shall open, permitting the Cuckoo Mechanism to pass through from Mechanus and emerge outward from the Tower\*\*.

### Section 4.2. The Three Cycles

The Cuckoo Mechanism must complete three (3) full cycles of passage through the Planar Aperture. Each cycle shall consist of:

- (a) The opening of the Planar Aperture and full extension of the Cuckoo Mechanism from the Plane of Mechanus outward through the Tower;
- (b) The sounding of the Cuckoo's Call—a two-tone harmonic sequence calibrated to the frequency of Mechanus ( $\nu_1 = 659.7$  Hz,  $\nu_2 = 580.3$  Hz);
- (c) Full retraction of the Cuckoo Mechanism back through the Planar Aperture to the Plane of Mechanus.

### Section 4.3. Completion

Upon the successful completion of the third cycle, the Planar Anchor shall be deemed established, and the connection between the Tower and Mechanus shall become permanent

---

spider webs across escapement forks.

\*\*The Cuckoo Mechanism is equipped with autonomous defensive systems necessary for its operation in uncontrolled planar environments. The Collective accepts no liability for incidental harm, structural damage, or loss of life resulting from proximity to the Cuckoo Mechanism during the Activation Sequence.

and irrevocable. The blessings of Order shall thereafter flow continuously through the Anchor into the surrounding region<sup>††</sup>.

## ARTICLE 5: TERM, CONTINUITY, AND SUCCESSION

### Section 5.1. Duration

This Contract shall remain in full force and effect from the date of execution until such time as Activation is achieved, or until the Contract is terminated in accordance with Article VI. There is no expiration date.

### Section 5.2. Continuity of Obligation

The obligations of the Uhrmacher under this Contract are attached to the role, not merely to the person. Should the Uhrmacher become unable or unwilling to fulfill his duties—whether by reason of death, incapacitation, voluntary departure, involuntary departure, existential crisis, or transformation into a non-corporeal state—the obligations herein shall not lapse, but shall transfer as provided in Section 5.3.

### Section 5.3. Succession and Transfer

In the event that the Uhrmacher fails to designate a successor prior to the cessation of his stewardship, and has not executed a valid termination under Article VI, stewardship of the Tower and all obligations under this Contract shall transfer automatically to the Modron Collective, acting in its capacity as Designated Agent of Contractual Fulfillment and custodian of unfinished Order. The Collective shall thereupon assume all rights, duties, and privileges of the Uhrmacher for the sole purpose of bringing the Contract to Activation<sup>‡‡</sup>.

### Section 5.4. Resumption of Operations

Upon assuming stewardship under Section 5.3, the Collective is authorized to enter the Tower, restore all mechanisms to Operational condition, complete any remaining preparations, and execute the Activation Sequence without further consent, approval, or authorization from any party, living or deceased.

## ARTICLE 6: TERMINATION

### Section 6.1. Termination by Mutual Consent

This Contract may be terminated at any time by the written and notarized consent of both parties, delivered simultaneously to the Kolyarut Registry of Accords, Mechanus, in

---

<sup>††</sup>The radius of effect shall expand at a rate determined by the Collective's Calibration Office and is not subject to negotiation. Initial estimates suggest a radius of approximately five (5) leagues at full saturation, though this figure may be revised upward without notice.

<sup>‡‡</sup>This clause exists purely as a contingency to prevent contractual orphanhood and ensure the orderly completion of mutual obligations. The Collective has no interest in acquiring stewardship and would vastly prefer the Uhrmacher fulfill his duties personally. This footnote is provided in the spirit of transparency and should not be interpreted as evidence of premeditation.

person and in triplicate<sup>§§</sup>.

## **Section 6.2. Termination by Judicial Decree**

This Contract may be terminated by formal decree of the Kolyarut Courts of Mechanus, upon petition by either party, provided that the petitioner demonstrates a Material Breach of no fewer than three (3) distinct contractual obligations by the opposing party, submits evidence notarized by a Kolyarut Enforcer, and appears before the Court in person on the Plane of Mechanus for a hearing scheduled no sooner than one (1) Mechanus Standard Year from the date of filing<sup>¶¶</sup>.

## **Section 6.3. Termination by Failed Activation**

Should the Activation Sequence, once commenced, fail to reach completion—whether by disruption of the Planar Aperture, forcible interruption of any cycle, mechanical failure, or any other cause preventing the completion of three (3) full cycles—the Sequence shall be deemed irrevocably failed, the Planar Anchor shall not be established, and this Contract shall thereupon become null and void in its entirety, releasing both parties from all obligations herein<sup>\*\*\*</sup>.

## **Section 6.4. Termination by Unanimous Resolution**

This Contract may be terminated by unanimous resolution of the Greater Modron Hierarchy, requiring the individual, written, and notarized consent of every Modron from Monodrone to Primus—currently numbering approximately thirty-six million—filed separately with the Kolyarut Registry. A single abstention, dissent, or failure to file shall render the resolution void.

## **Section 6.5. Effect of Disconnection Without Termination**

The mere disconnection of the Gear, the cessation of Tower operations, or the abandonment of the Tower by the Uhrmacher shall not constitute a valid termination of this Contract. Such actions shall be deemed a temporary suspension of performance, and the obligations of the Uhrmacher (or his successors, as determined under Article V) shall resume upon the restoration of Operational conditions.

---

<sup>§§</sup>“In person” means physical presence on the Plane of Mechanus. Astral projection, sending spells, and strongly worded letters do not satisfy this requirement.

<sup>¶¶</sup>One Mechanus Standard Year is equivalent to approximately 365,242 Prime Material days, owing to the difference in planar temporal density. Petitioners are advised to plan accordingly.

<sup>\*\*\*</sup>The Collective regards this clause as a mathematical formality. The probability of ritual failure, given adequate preparation, is calculated at 0.00017%. This figure accounts for all known variables and several unknown ones.

**IN WITNESS WHEREOF**

the parties have executed this Contract as of the date first written above.

**The Uhrmacher**

**The Modron Collective**
